

10 SIMPLE THINGS YOU CAN DO TO CELEBRATE EARTH DAY

1. **Recycle a soda can** - save enough energy to power your computer for five hours.
2. **Empty rooms love the dark** - flip the switch when you leave.
3. Office equipment wastes energy when not in use - **turn off idle equipment**.
4. **Buy products with recycled** content and reduce energy consumption by 30 percent.
5. **Look for the Energy Star® label** when you replace computers and office equipment.
6. **Bring a ceramic mug to work** - conserve the energy it takes to make 500 paper cups a year.
7. **It's good to share** - carpool to work to save energy and reduce pollution.
8. **When you make copies, use both sides** to double your energy and resource savings.
9. **Use compact fluorescent** torchiere lamps - they're safer and use much less energy.
10. **Bike to work and on errands** whenever possible.

21ST CENTURY CITIZENSHIP

Visit FEMP's "YOU HAVE the POWER" Web Site at www.eren.doe.gov/femp/yhttp to meet all 226 Energy Champions and learn what they're doing to save energy, money, and the future.

CLEAN ENERGY NOW

CLEAN ENERGY FOR THE 21ST CENTURY BROCHURE

A new DOE publication is available from the Energy Efficiency and Renewable Energy Clearinghouse (EREC) that features energy efficiency and renewable energy research and development programs and activities that will help provide Clean Energy for the 21st Century.

The colorful eight-page brochure describes the programs and activities of the Department's Office of Energy Efficiency and Renewable Energy (EERE). By explaining the magnitude and complexity of DOE's programs and the wide range of customers they serve, a greater understanding of the ways in which DOE is working to ensure a secure and prosperous future for America is attained. The brochure also contains eight companion fact sheets that provide overviews of each of EERE's program offices, DOE Regional Offices, the DOE Golden Field Office, and national laboratories. This is an ideal communication tool for Earth Day 2000 activities.

To order copies of DOE's Clean Energy publication, please complete the form online at: <http://www.eren.doe.gov/cleanenergy/order.html>. Your request will be submitted to the Energy Efficiency and Renewable Energy Clearinghouse. Quantities are limited to five per customer. To request larger quantities of these materials directly, you may contact EREC by calling 1-800-DOE-EREC (363-3732), writing EREC, P.O. Box 3048, Merrifield, VA 22116, sending e-mail to doe.erec@nciinc.com, or by fax at 1-703-893-0400.
